## What people say about this book

Tsvetomir, "Good guide. The book is good for someone with less experience. If you want a guide, this book can be a good choice. The style this book is written is a bit specific, so don't judge it from the first read, but read it again to understand the main, idea"

kaotic, "Fine. Fine"

Ahmed Qadir, "Great Value for Money. At almost 1,100 pages It's comprehensive. Covers a wide range of topics and one can delve into further research using other sources. I came across a useful concept of "peer assists" and I'm sure that, given enough time, I'll come across many more. At 1,100 pages, though, it's not the easiest thing to carry around. But that's a minor grievance for me."
