Synopsis

Embark on an unforgettable time-traveling journey along one of the world's greatest landmarks: the Great Wall of China. Spanning 2,300 years and more than 13,000 miles (21,000km), this beautifully illustrated children's ebook reveals the fascinating story of the Great Wall and the individuals who helped build it. What started out as a frontier defense against northern tribes has, over time, become one of the seven great wonders of the world. Exquisite panoramic illustrations and engaging text bring to life key periods and turning points in the Great Wall's history - from the first defensive forts built in 215 BCE to its painstaking present-day restoration. Cutaway views reveal the interiors of important buildings. Children will also love searching for the adventurous time-traveling bird who appears in each of the illustrations. Perfect for parents and children to pore over together, *The Great Wall Through Time* makes a gorgeous gift or collector's item. Fun, interactive, and including details, it vividly presents Chinese history to children as they have never seen it before.

JM, "Enjoyable Glimpse into Chinese History. This is a quick and enjoyable read for people of all ages who are interested in getting a glimpse into the history of the Great Wall.I was especially happy to see that DK learned from feedback that readers provided on the China Through Time book that preceded this one, and decided to publish the scenes of The Great Wall Through Time in chronological order, which made this book much easier to follow. Thank you DK!"

paulbrad, "Epic!. This is an epic children's book produced by DK. It is a very large landscape format, measuring 35 cm by 27 cm, when closed and a whopping 70 cm by 27 cm when open. This is an epic retelling of the Great Wall of China. The illustrations are magnificent - there is so much to see and read about on each double-page spread. A bonus feature is to try and find Hong Yu the cunning time-traveling fox, a kind of sophisticated "Where's Wally" feature to encourage further exploration of the intricate detail in the double-page spreads.Five stars and then some!"
