Synopsis

Parables is a series of short horror fiction by writer and editor Mae Murray (The Book of Queer Saints). In Scales Fell From Her Eyes: Parable #1, a curious wolf contends with a ruthless winter as human settlers encroach upon her pack's territory during the Klondike Gold Rush.

What people say about this book

Hailey P, "Lush story. A beautiful short story of striking atmosphere, vivid imagery, and lush prose. I won't do that thing where people knock a rating because they wanted more, this is a glorious short story, BUT I would love to read a longer work told with Mae's enchanting voice and powerful energy."
